

Lostine River Weir

Weekly Chinook Summary: *July 09, 2025*

Disposition Summary

- In-season adult return-to-tributary estimates were updated on 2025-06-18 to 300 natural-origin and 773 hatchery-origin adults.
- Brood stock collection goals are 48 natural-origin adults, 112 hatchery-origin adults, and 6 hatchery-origin jacks.
- Composition of adults passed upstream: 50% Hatchery (Sliding scale goal $\leq 50\%$)
- Composition of adults kept for brood: 31% Natural (Sliding scale goal $\geq 30\%$)

Table 1. Return year 2025 capture and disposition summary of Hatchery Chinook Salmon (numbers in parentheses exclude recaptures).

Disposition	J	F	M	Total [>630]	Total [all]
Upstream Release	0 (0)	33 (33)	22 (22)	55 (55)	55 (55)
Brood Collection	1 (1)	17 (17)	17 (17)	34 (34)	35 (35)
Food Distribution	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)
Wallowa River Outplant	4 (4)	19 (18)	29 (29)	48 (47)	52 (51)
Recycled to Fishery	1 (1)	2 (2)	1 (1)	3 (3)	4 (4)
Mortality	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)
Total	6 (6)	71 (70)	69 (69)	140 (139)	146 (145)

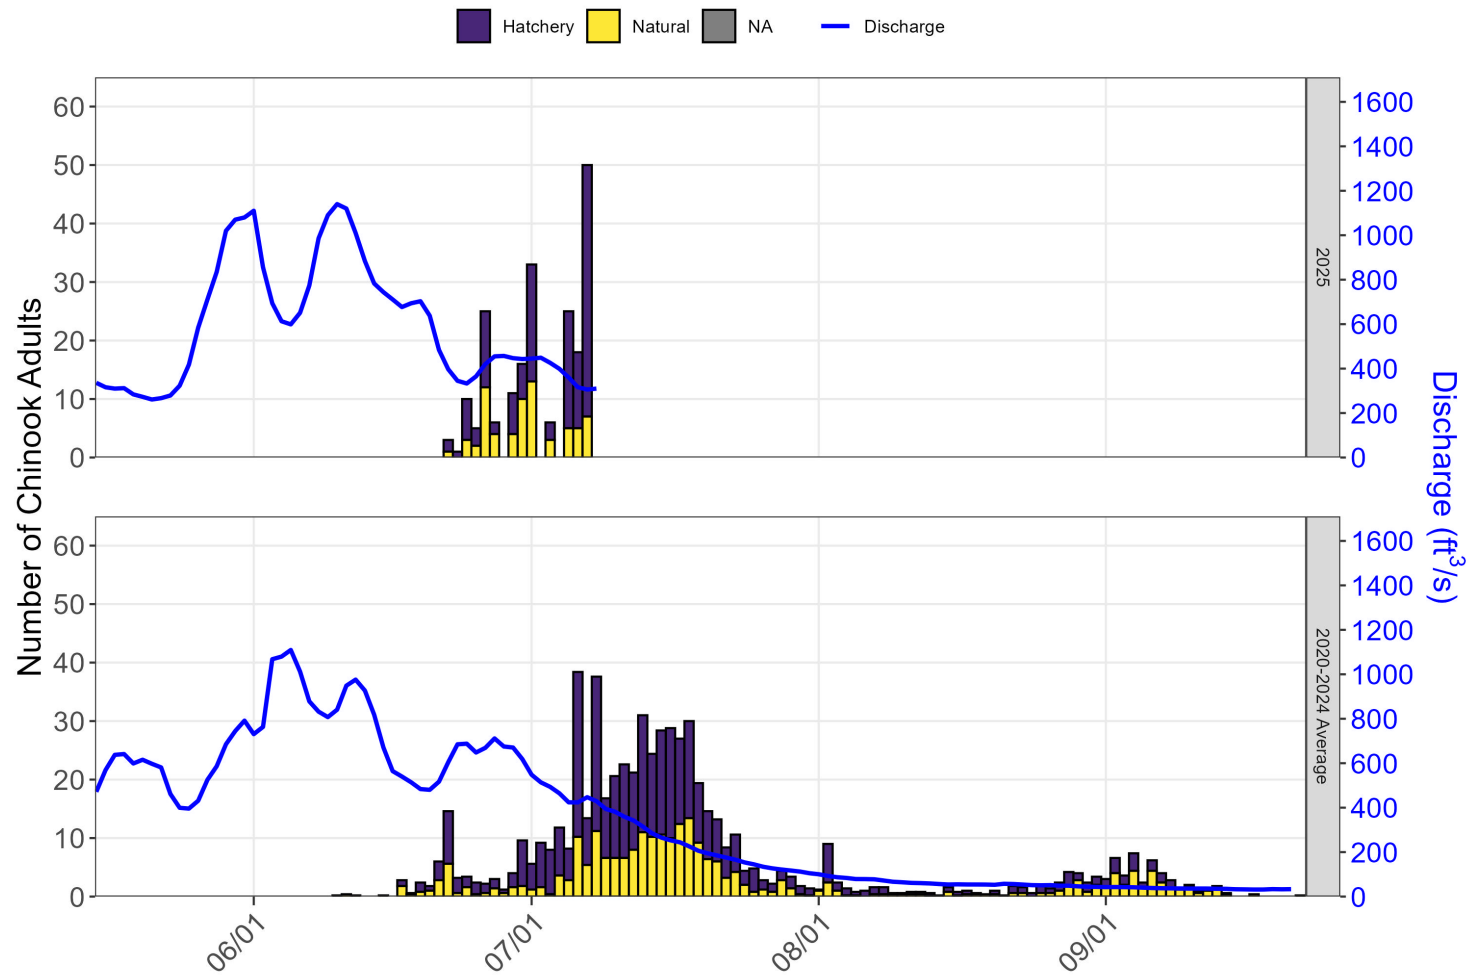

Table 2. Return year 2025 capture and disposition summary of Natural Chinook Salmon (numbers in parentheses exclude recaptures).

Disposition	J	F	M	Total [>630]	Total [all]
Upstream Release	8 (8)	19 (19)	35 (35)	54 (54)	62 (62)
Brood Collection	0 (0)	9 (9)	6 (6)	15 (15)	15 (15)
Food Distribution	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)
Wallowa River Outplant	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)
Recycled to Fishery	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)
Mortality	0 (0)	0 (0)	0 (0)	0 (0)	0 (0)
Total	8 (8)	28 (28)	41 (41)	69 (69)	77 (77)

Table 3. Return year 2025 weekly summary of captured adult Chinook Salmon and Bull Trout, excluding recaptures. Broodstock collection for Chinook Salmon is shown in parentheses. *Asterisk indicates an incomplete week.

Week Start	Natural Chinook	Hatchery Chinook	Bull Trout
< Jun 22	0 (0)	0 (0)	7
Jun 22	22 (6)	28 (10)	14
Jun 29	35 (6)	56 (17)	13
Jul 06*	12 (3)	57 (7)	6
Total	69 (15)	141 (34)	40

Lostine River Weir Current and Historic Catch and River Flows

Return year 2025 (top panel) and five-year average (bottom panel) of mean daily discharge (cubic feet per second) and daily captures of hatchery- and natural-origin adult Chinook salmon at the Lostine River Weir. Discharge recorded at USGS station 1333000 located upstream of the town of Lostine.
